Today the richest 400 Americans have more wealth than the bottom 150 million Americans combined! *Inequality for All* is an award-winning documentary that features noted author and former U.S. Secretary of Labor Robert Reich. He lines out why we have severe wealth disparity and suggests some strategies to change the course of this devastating trend.

Cape Cod's State Senator Dan Wolf is a leader on Beacon Hill in the battle against income inequality here in Massachusetts. After the documentary, he will update us on the action on this issue in Boston and take our questions about what we can do to hold our leaders accountable.

For the potluck, please bring hors d'oeuvres to share
(organic and from a local source, if possible).

Please **RSVP** to Jo Ann Kelley at jojolk@dslextreme.com by
